

AUDIO-DINAMP

Streaming player amplifier 2 x 30W

Amati.linea amplifier is a compact DIN-rail audio amplifier delivering 2x30W stereo output, designed for seamless integration into building management systems using AUDIO-DINST streaming player or other compatible devices.

Physical interfaces

Enable/Disable input	1 (24V DC)
Line-in	1
Line-out	1
Stereo speaker-out pair	1

Power

Power supply	24 V DC via terminals
Power consumption	0.1 W (idle)

Connections

Power / Line-in/out / Enable	Clamp, 0.8 mm ² .. 1.5 mm ²
Speakers	Screw terminals, 0.8 mm ² .. 1.5 mm ²

Enclosure

Mounting support	DIN rail
DIN module width	2
Dimensions WxHxD	54 x 112 x 61 mm
IP degree of protection	IP20
Net weight	110 g

Standards compliance

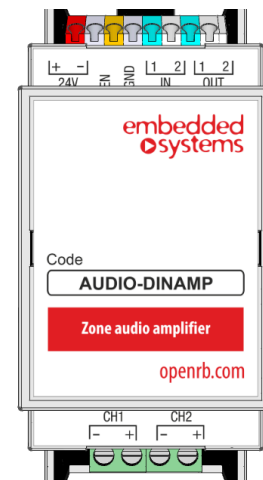

EMC	EN61000-6-1; EN61000-6-3
-----	--------------------------

Environment

Operational temperature	0 °C .. +45 °C
Storage temperature	-15 °C .. +55 °C
Relative humidity	0% ... 93% (without condensation)

Warranty

	2 years
--	---------

Key highlights

Compact DIN-Rail Design

Designed for easy installation in standard electrical cabinets, suitable for both residential and commercial setups
